Patricia-- I've had a quick look at the Alton Coal CRMP outline, and it looks good to me. The only thing missing (that I noticed anyway) is a line addressing final publication of the results; will a full-blown report follow Phase I, or will that be an interim report that will eventually be rolled into the final report for the whole thing? I suggest a thorough report following Phase I, and then interim/annual reports for following phases, with a full-blown published report at the completion of mitigation. This mitigation could stretch out for quite a while, let's see what others on this mailing list have to say.
